	G -North						13, 20, 31				
	(G- South & H)										
	E, G (Whole), H										

*All tracts listed above in a group will be auctioned individually and then again in combination. Whichever method produces the higher total amount will dictate how the property will be sold.

*When multiple tracts are shown in parenthesis on one line it means that those tracts will sell together as one property with multiple deeds. They will not be offered individually.
