Our strengths are **community,** **innovation,** and **unity.**

Kingsport has a strong and proud industrial heritage spanning over 100 years. As we look to the future, we are diversifying our industrial roots with progressive technological innovations. One of our city's founders, J. Fred Johnson, said,

“Frequently we are asked what motivating spirit has been most apparent in the building of this city of industries, schools, churches and homes. Were I to undertake to define the spirit underlying every step in the growth and development of Kingsport, from the days of its humblest beginnings until now, I could not avoid the assertion that the spirit, if it be a spirit, is one of mutual helpfulness and a willingness to submerge selfish interests beneath the individual effort to assure the greater good for the greater number.”

Today, J. Fred's words are as true as ever. From an amazing Chamber of Commerce to our industry and community partners, the Kingsport Spirit is thriving as we proactively grow our community. Kingsport is a professional city that values innovation, education, hard work, and supporting our families and community.
