FINAL PERMIT ISSUED

GROUND WATER COMMISSION STATE OF COLORADO

FINAL PERMIT NO. 19259FP

NORTHERN HIGH PLAINS DESIGNATED GROUND WATER BASIN

Priority date: November 29, 1974

Use: Irrigation

Name of Claimant: LLOYD HODGES ET AL

Location of well: SW1/4 of the NW1/4 of Section 3, Township 10 N,

Range 43 W. of the 6th Principal Meridian

Maximum annual volume of the appropriation: 325 acre-feet

Maximum pumping rate: 1000 gallons per minute

Number of acres which may be irrigated: 130 acres

Description of acres irrigated: PART NW1/4 SECTION 3,T10N,R43W

Totalizing Flow Meter: Meter required

Done this 1915 day of 344, , 1989

Jeria A. Danielson State Engineer, State of Colorado

By:

Purushottam Dass, Chief' Designated Basins Branch Ground Water Section

Denver, Colo,

Gentlemen

the would like to move our well Drelling permit No. 019259F a little to The west. It will still be in the Same 40 acre tract, 5W14 NW14 3-10-43 Sedguish Co. The new location requested would be 1330 from The horth Sec. line 400 from the west Secline Emboul is Hudger check for the 1000 Cost.

Thanks.

yours truly Hoyd Hadger July 14, 1975

Lloyd Hodges, et, al. Star Route, Box18 Julesburg, CO 80737

Dear Mr. Hodges:

On January 23, 1975, you were issued irrigation well permit 19259-F at a location in the Southwest 1/4 of the Northwest 1/4 of Section 3, Township 10 North, Range 43 West, Sedawick County, Colorado.

The specific location of this original permit was 1321 feet from the Westh line and 1319 feet from the West line. You have amended this re-location to within the same 40 acre tract with a specific location of 1330 feet from the North line and 1391 feet from the West line. This amended location has been advertised in the newspapers of local distribution and no objections have been received within the objection period.

Enclosed are two copies of permit number 19259-F showing the amended location.

Very truly yours,

Leonard A. Mercer Mater Resource Engineer Ground Water Section

Lloyd & Kenneth Hodges Lorene Classen Star Route, Box 18 Julesburg, CO 80737

RE: Duplicate irrigated acres under irrigation well permits No. 19259-F, No. 19258-F, and R-16217 all located in Section 3, Township 10 North, Range 43 West

Dear Sirs and Madam:

You are the owners of record of the above-referenced irrigation well permits which duplicate approximately 140 irrigated acres and carry a duplicated appropriation of 350 acre-feet. Enclosed is a map showing a diagram for clarification.

In the course of preparing final permits, it will be necessary for the staff to cut back any duplicated irrigated acres and appropriation. Since R-16217 is the senior permit, 19259-F and 19258-F would necessarily be the permits reduced unless you request the reduction from R-16217, a reduction to the 250 acres not duplicated and the resultant 625 acre-feet.

You are being notified of this situation because you might prefer the more balanced irrigation pattern rather than the automatic reduction of junior permits, No. 19259-F to a maximum of 109 irrigated acres/273 acre-feet and No. 19258-F to 60 acres/150 acre-feet. Please let us know in writing if you prefer the reduction of R-16217.

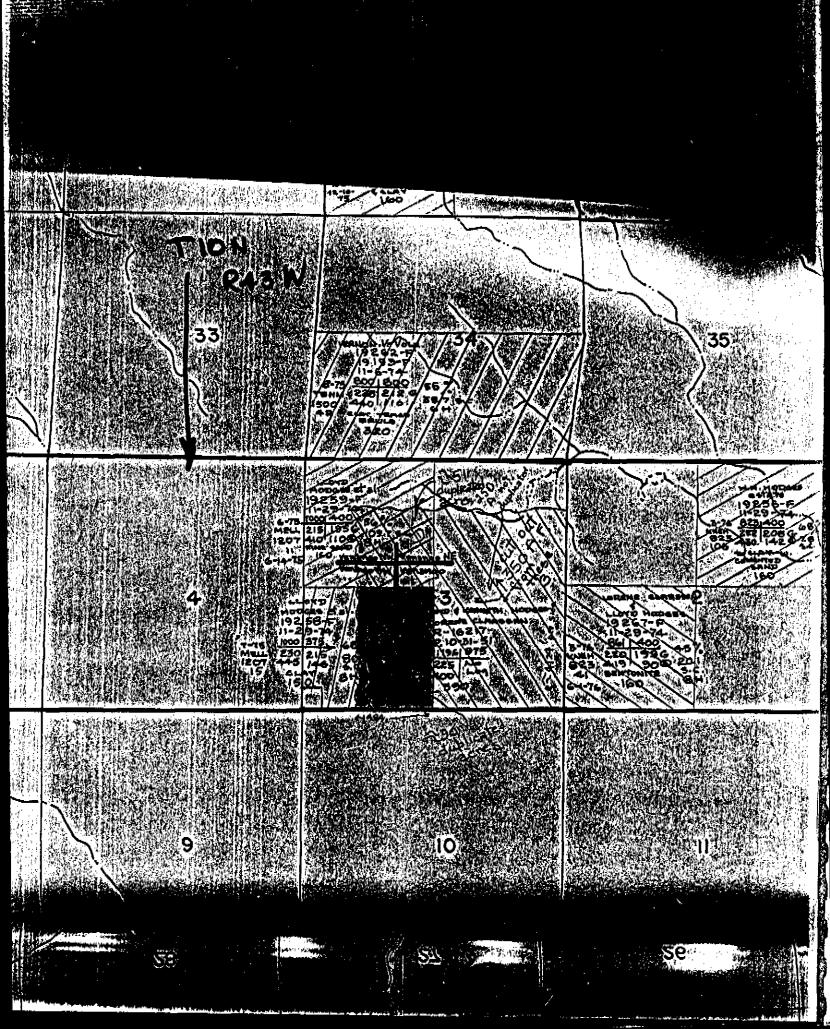

Very truly yours,

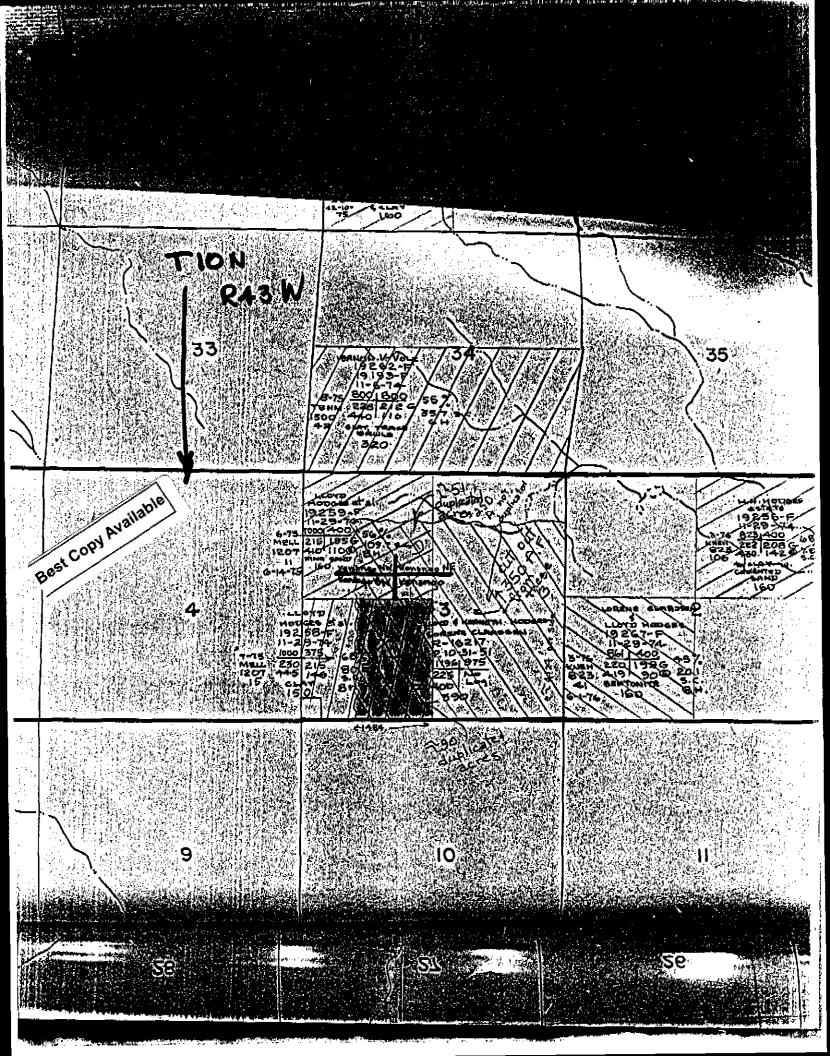

Dorothy D. Nestlerode Water Resources Engineer Ground Water Section

Ben Saunders, Manager Northeastern Ground Water Management District P.O. Box 74 Holyoke, CO 80734

RE: Duplication of irrigated acres by Hodges, Permit Nos. 19258-F, 19259-F, and R-16217, all located in 3-10N-43.

Dear Ben:

In response to my letter of November 8, 1979, today Mr. Hodges has visited the office, provided us with a true map of his pattern of irrigation and voluntarily reduced the permitted irrigated acres on his old registration and authorized adjustment of the other two. The map showing the changes should be in your hands by the end of next week, and I enclose a copy of his aerial photo marked to show the changes.

Letters of inquiry have been sent on duplicate irrigation only where a substantial amount was involved and it was felt that reductions in accordance with junior priority would likely be against the appropriator's desires. Mr. Hodges' case and his response is an excellent example. We would likely have had to reduce No. 19258-F because it is junior to R-16217 although he would rather irrigate the SW4 from No. 19258-F; it was predominantly a matter of his having not removed the additional irrigated acreage from the old water right when he acquired a new one. Thus he's saved himself (as well as us) a lot of grief at final permit time.

We'd sure appreciate it, Ben, if you could explain it that way to any of your flock who seek your advice when these duplications are called to their attention--or you contact them! And thanks for your help so far!

RE: Well Permit No.s 19258F, 19259F

Dear Mr. Hodges:

The data for the final permits of the above referenced irrigation wells located respectively in the SW1/4 of the SW1/4 and the SW1/4 of the NW1/4 of Sec 3,T10N,R43W was published in the Julesburg Advocate in June 1989. Our records indicate that the cost of Final Permit Publication has not been received. Please be advised that pursuant to Section 37-90-116, C.R.S., the well owner is responsible for these costs.

Enclosed are third invoices for these permits. Please enclose payment in the amount set out in the attached original invoices for publication cost. Be sure to include the lower portion of those forms with your remittance to insure proper processing.

If you no longer own these wells, please provide this office with the name and address of the new owner, if possible.

Thank you.
