### PROPERTY SUMMARY

Pitman Creek is a well-known waterway that runs into Lake Cumberland a few miles away. Roughly a mile of this creek runs along this fantastic recreational farm's borders, loaded with smallmouth and largemouth bass! You'll find this creek floatable by kayak or a small boat. This exceptional property has a great internal road system for riding and easy access to nearly all the property. Thick and remote, this parcel would make an exceptional hunting or outdoor activity property. Only minutes from downtown Somerset, KY, this tract is just far enough to feel remote but not too far to feel isolated. Deer, turkey, bobcat, and numerous small game species reside throughout the property. There is a great location for a remote home site or hunting cabin that is reasonably close to water and electricity. Without question, if outdoor activities and quiet are something you enjoy, this is the property for you.
