PROPERTY SUMMARY

Fully planted and income-producing central California citrus farm with 2 sources of irrigation water. The Shiranui trees planted in 2018 are still growing in size with the full production years coming in 2024 and 2025. When properly cared for, Shiranui mandarins can produce the highest returns of all citrus types. The blood oranges are in full production and of high quality. This is a great opportunity to purchase a farm that has strong, healthy, and productive trees.
