PROPERTY SUMMARY

Lifetime opportunity to purchase a truly amazing private waterfall property! Photos can't do this waterfall justice - and in most places, this would be a state park - This incredible feature is the centerpiece of an amazing 137.87 acres. That includes several small creeks (with even more waterfalls), several ridge tops (with nice mountain views), and more than 1 mile of Darnell Creek frontage running through the middle of the property. Enjoy this remote mountain property for an off-grid get-away & personal outdoor recreation (hunting, hiking, fishing, 4-wheeling or panning for gold) - OR - buy it and sub-divide utilizing the state road access and miles of trails & old logging roads running throughout the land. Whatever your plans, this is a legacy property with great investment potential (short or long-term). Schedule a tour to visit as soon as possible before someone else makes it theirs - opportunities like this are very rare!
