PROPERTY SUMMARY

You may have just found your dream property! We rarely see small tracts with so much to offer, especially when they are reasonably priced. This property offers the perfect home or cabin site, in addition to excellent hunting opportunities. With 18-year-old pine plantation for future return on your investment and an abundance of wildlife, it's the ultimate retreat for those looking for a quiet place to get away. Water and power are readily available to the property and there is more land available to be purchased if you want more acreage. It's within minutes of Jeff Busby National Park, Choctaw Wildlife Management Area, and Choctaw Lake. The area is known to have a good deer and turkey population, as well as small game. Located approximately 35 miles from Starkville MS, and MS State University with some of the best restaurants in Central MS, and lots of shopping.
