PROPERTY SUMMARY

This rare small Perry County parcel is very remote, located deep in the National Forest where deer and turkey hunting is known to be great. The neighboring property has power so it's close to build a remote cabin with power. There is a small stream on the property. This property has timber ready to be cut. There is some pine timber and some mature hardwoods on the property. Don't miss your chance to own your little piece of land with access to 1,000's of acres of National Forest land surrounding it.
