PROPERTY SUMMARY

Located on approximately 94 acres just north of Onley on Virginia's Bayside, this versatile property offers a rare combination of productive farmland, recreational opportunity, and serene natural beauty. With around 40 acres of cleared land featuring primarily Bojac Sandy Loam soils, it's well-suited for continued row crop or vegetable production—the land is currently under lease through the 2025 growing season. The remaining acreage is wooded, boasting a healthy mix of hardwoods and pines that provide excellent habitat for whitetail deer and wild turkey, making it a prime location for hunting or nature watching. The property borders Deep Creek along its northern edge, offering access to the Chesapeake Bay. Whether you're looking to farm, hunt, or build a private home surrounded by nature, this land provides the ideal setting. Just minutes from the town of Onley and a short drive to Chincoteague and the Chesapeake Bay Bridge-Tunnel, the property offers both seclusion and convenience.
